## COURSE OUTLINE:

The goal of this course is to share what works in hearing loss prevention, to meet compliance requirements and, ultimately, truly prevent work-related hearing losses. Attendees will learn from CAOHC experts in all areas of occupational hearing conservation. Discussions will include:

- tools to create, manage, and improve your occupational hearing conservation program.
- roles and responsibilities within an occupational HC program.
- current standard of care that exists.
- continuous improvement ideas.
- best practices to date.

## WHO SHOULD ATTEND?

This course is intermediate level and designed for:

- those new to hearing conservation (i.e., assigned responsibility but have little or no knowledge of the subject).
- those with experience (knowledgeable, but want a refresher/update) in HC efforts.
